Professional Summary

Motivated and detail-oriented IT and Cybersecurity student with hands-on internship experience in technical support and device troubleshooting. Google-certified in IT Support and Cybersecurity, with practical experience assisting users, maintaining systems, and supporting basic networking tasks. Strong problem-solving skills with the ability to explain technical concepts clearly to non-technical users. Passionate about technology, continuous learning, and building real-world experience in IT support, systems administration, and cybersecurity. Seeking an entry-level IT position where I can contribute, grow, and expand my technical expertise.
